Principals Message

Another year is drawing to a close and the students are waiting for the exams. Some are waiting with dread and others with anticipation depending upon the amount and the quality of last year's work.

Some of the students will be leaving school this year to go out into society and make their contribution. This is some thing which each of you will have to do in the near future. We as teachers are trying to prepare you for that big step. We hope that you do not feel, now that you are leaving school, that you need never learn anything more. This is never the case. Leaving school is not the end of your learning but only the beginning. Learning never stops but continues as long as you live.

We as teachers have not tried to give you all the answers to the problems you will meet but we have tried to give you a framework within which you will be able to provide your own solutions to your problems. The degree to which we have succeeded depended greatly upon your effort and I am happy to say that in most cases your effort has been very good.

In closing I would like to wish each of you the best of success next year wherever you may be or whatever you may do.

PRESIDENT'S MESSAGE

Ten more months have passed for me, and these have been the most enjoyable ones of my twelve years in school. The Students' Union made my term a pleasant one by electing me president.

There have been many other presidents in the past years of the Hines Creek High School, and I think they have shared the same cooperation and experiences with fellow students that I shared with them during this term. I would like to take this opportunity to wish good luck to these students in their future years.

The Hines Creek Students' Union will continue for many more years. At this time, I would like to express my sincere thanks to our Students' Union Advisor, Mr. Yerxa. He, with the other teachers, has given up his leisure time to coach basketball teams, supervise curling bonspiels, and support social functions. I hope future principals will cooperate with their students as Mr. Yerxa has done this year.

In conclusion, I add that we have acquired a little more information, but we have mountains of knowledge waiting to be touched. We must continue to learn and to prove to ourselves that we are responsible for what we do. I extend my wish for the best of luck to future presidents and I hope each of their terms are as successful as mine has been.

GRADE TWELVE

VALEDICTORIAN

The time we have thought about for such a long time is now finally upon us. During grade school, I am sure that nothing appealed to any of us more than the thought of being "one of the big guys" in high school. Later, when we had attained that status, we dreamed about Grade Twelve, and Graduation. Now, that too is upon us and once again we find that this is not our final goal. Now we are thinking of our further studies in various fields. Some of us will go on to university, others will begin as secretaries, and then again others will begin, even different jobs. Each new day in our lives each of us will meet new challenges and these in turn, when we meet them, will give rise to new aims. This will happen whether we will go on to a life of farming, secretarial work, other professional careers, or looking further ahead, being a husband or wife. In meeting these new problems we will always draw upon the experience and education which we received at Hines Creek High.

Lennie Weikman

RICHARD ZAVISHA: Macbeth, work, and jelly beans he dislikes. His interests run to the Rolling Stones, drag racing, and Plymouth cars. He plans to design cars after he has visited U.S.A., South America, Australia, and Europe and seen their latest models.

IRMTRAUD WEIHMANN: Tammie is an avid jazz enthusiast but enjoys biology, too. Yearbook Assistant Editor, Cheerleader, and a member of the United Church Choir, she plans to enter into the field of medicine.

KAREN KABANAK-

Although Karen isn't quite sure what her future will hold, her secret ambition is to become a commercial artist. Her main interests include coin collecting, swimming, and driving a 1965 Buick. Karen finds plenty of time on weekends even though she is Sec. Treas. of Teen Town and Treasurer of the Student's Union.

DONALD SIDEROFF: Donnie is known to all as the "clown of the class." He enjoys all sports, especially basketball and curling. He is the Boys' Sports Convenor on the Students' union and he is a member of Teen Town. He dislikes school especially sociology and he "lives" for his spares.

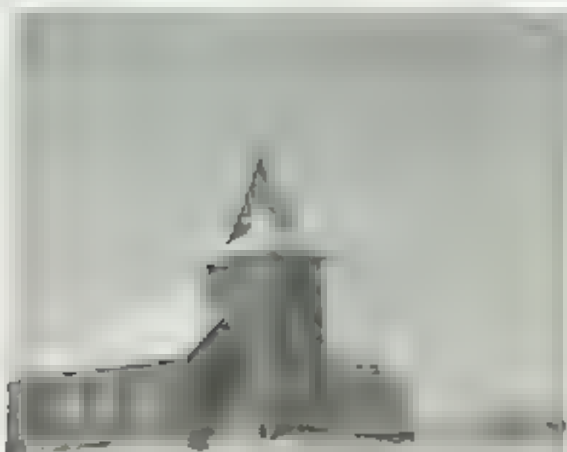

BRIAN NASH-

When you hear "Hi, Doll!" there will be Brian. He is the Social Convenor of the Student's Union, and he is an active member of the Teen Town. His ambition is to make a million.

CONSTANCE FERGUSON-

Driving a c/r, swimming, and ??? keep Connie well occupied. This teentown President dislikes all school subjects except Biology. This future pharmacist has the ambition to travel.

ARLINDA GRIER-

Arlie's ambition is to become a teacher. She plays the piano, organ and accordian and is also interested in record collecting. Time permitting, she would like to travel around the world.

MYCHAIL LUKA: Dick wants to wander far and near. "We're off like a herd of turtles" is a sound frequently heard behind the wheel of his car. Dick likes biology and social studies and irritating the teachers. His chief dislike is "most girls" but he'll change.

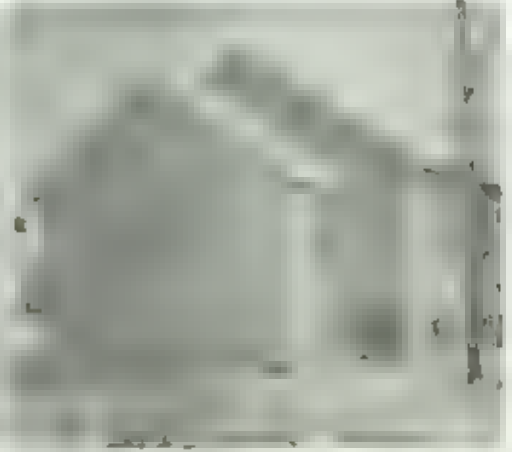

DONALD ZWICK: Don says his destination is uncertain but he's determined to get somewhere eventually. Don likes girls, cars, shows, and jazz. His one dislike would seem to be homework.

MERIDEL EDMUNDS: Del, assistant editor of the Yearbook, enjoys horseback riding, playing the accordian, reading, and painting. She hails from Royce and has been with us since Grade 5. She intends on taking a commercial art course after graduation. Before she gets too involved in her career, she intends on visiting Mexico.

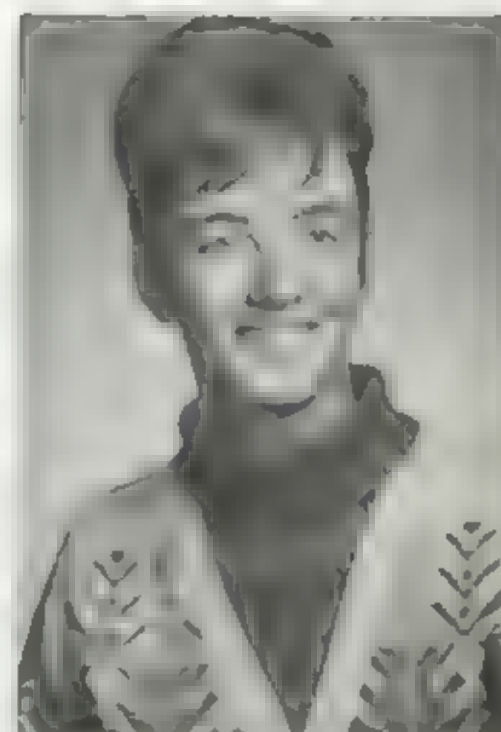

ANNABELLE OSTREM: Annabelle is kept busy with church activities, Yearbook work (Assistant Editor), and sports, but still finds time for horseback riding, leisure reading, and baking. Annabelle plans to take Nursing in Ontario.

DON STOSKY: Don is our class theorist, Editor of the Yearbook, Gr. 12 Room Rep. and our representative at the UN (Banff). Don finds time to play basketball, chase girls, and also complete his homework. His future concerns engineering and vacationing on the moon.

THOMAS STOSKY: "Tom-Cat" likes sports especially basketball and curling. Our Students' Union President is also interested in cars, especially his "bomb". Law and girls are his favorite subjects and his only interest is girls.

CAROL BAK: Carol, the highest scorer of the Interschool Basketball League, is also interested in badminton and driving her father's car. A future accountant, she enjoys typing, bookkeeping, and mathematics. She intends to visit Hawaii in the near future. Bon voyage!

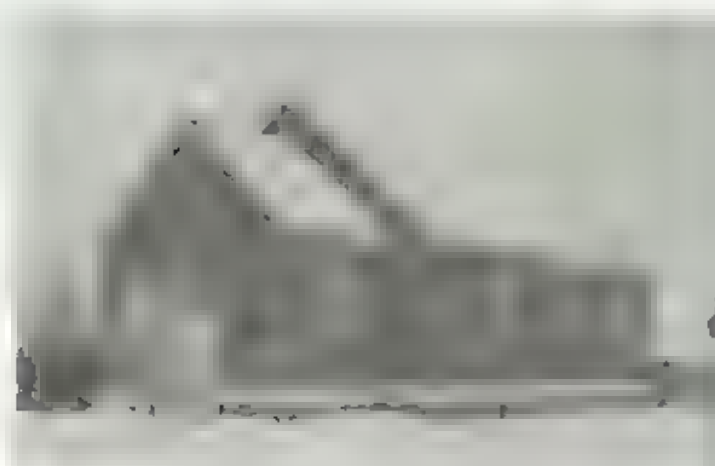

JUDY PRATT: Judy likes bookkeeping and Biology, but dislikes Social Studies. This active member of Teen Town operates the switchboard and drives a car. Although she is Hawaiian bound, she intends to take a business course.

FUGENE LOCKHEAD-

Girls, physics and mechanics add to Gene's decision in taking an Electronics Engineering course. At present he is a member of the 4-H Club and the B.P.A. and his interests are basketball, curling, and dancing.

BETTY GANNON: Betty hails from Porcupine Plain originally but she's Hines Creek's gain. She is the Grade 12 Room Rep, Secretary-Treasurer of Teentown, and is organist for the United Church Choir. Her interests run to basketball, curling, skating, and music.

Senior Class Prophecy

This is the Rocket Age. Let us blast off into the future year of 1980. We are looking at the destinies of our 1965-66 Senior Class.

If you find the Alberta fiscal budget exceptionally well-done, you know our accountant, Carol Bak, has reached a destiny even higher than she aimed for. Donnie Sideroff, although he used to be known as the clown of the class, didn't join the circus. He is an efficient mechanic who now is manager of his own garage. Arlie Griep and Connie Ferguson have joined forces to teach the seemingly unteachable students at Hines Creek High. Donald Zwick, Eugene Lochhead, and Dick Luka are working hard to feed the world's population; Betty Cannon is trying to keep their teeth in working order; Judy Pratt is trying to satisfy the yappy members of our race who insist on telephoning continually; Annabelle Ostrem and Tammie Weihmann are striving desperately to save all the sick of the world, while Donald Stosky is racking his engineer's brain for some form of transportation to the moon to reduce the earth's exploding population. Albert Mierzowski has made such a success of his business in refrigeration that he is expanding it to a three-story building. Meanwhile, if you're thirsty, he'll be glad to serve you a cool beer or two. If you happen to notice such signs as "Drive a Buick", you can be sure our commercial artist, Karen Kabanak, has made it. Brian Nash, having made his million, is quite content to buy Meridel Edmund's abstract paintings for a sum of money that we'd all like to get our hands on. Tom Stosky now sits back and thinks of the green "Bomb" he used to drive. (It's quite a comparison to the spaceship he's piloting, nonstop, to the moon.) Last, but not least, is Richard Zavisha whose latest design in cars is the "Sky-Rocket". He's preparing for the trips to the moon in the near future.

Because these reports are merely opinion not fact, the lives of the students will probably turn out much different in reality. James Morgan once said, "One night he dreamed that he was in a crowd, when someone recognized him as the President, and exclaimed in surprise, "He is a very common-looking man." Whereupon he answered, "Friend the Lord prefers common-looking people. That is why he makes so many of them." I hope each of you heeds the hidden advice he gives. The best of luck to all of you!
